

The Complete e-Workplace[®] Solution

Alacrinet's unique **IBM WebSphere Portal Solution** provides the business advantages of a complete eWorkplace solution, combining the benefits of an Enterprise Portal, Unified Messaging, and Wireless Anytime Anywhere Access.

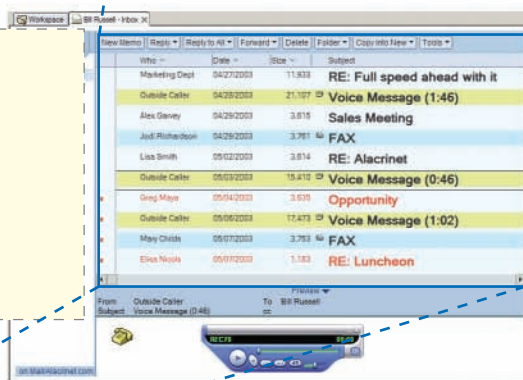

>> ENTERPRISE PORTAL

Improve employee productivity by providing them with a unified desktop of applications and information that is organized to match their work patterns.

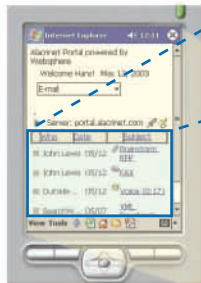

>> UNIFIED MESSAGING

Address the growing need for your employees to manage the different types of messages by putting voice mail, e-mail, and fax messages in one place, your e-mail Inbox.

>> WIRELESS ACCESS

Extend the utility of your Portal and unified messages beyond the confines of the traditional office workplace. Enable your employees to access business applications and information from virtually anywhere at any time. Empower them with the right information when needed.

Communicate.
Coordinate.
Collaborate.

WebSphere Portal can help you realize the following benefits:

- * Increased employee productivity through easy access to critical business applications and information
- * Improved customer and business partner satisfaction and loyalty resulting from portals that are personalized to each user's unique needs and interests
- * Reduced costs for building and maintaining first class portals

WebSphere Portal includes the following collaboration features:

- Web Conferencing
- Instant Messaging
- On-line awareness
- Team workplaces
- Team calendaring
- Project tracking
- Document Libraries

Looking to reap the benefits of a Portal in your organization?

We've put together the perfect solution for you...
